Hummingbird Feeder

Things You'll Need:

Small plastic tub with lid (butter or sour cream tub)
soda or water bottle, 12-16 oz
Tape
scissors/ Xacto knife
ribbon/string
1/4 cup sugar
3/4 cup water

Wash bottle and plastic tub thoroughly and rinse well. Make sure any soap is removed, dry thoroughly.

Cut 4 small pencil sized holes in lid of plastic tub. You may cut more if desired.

Measure bottle opening and cut hole in middle of tub lid a tiny bit smaller. You want a snug fit.

Place tub lid carefully around bottle opening.

Place lid on tub, and use ribbon for string around top of feeder (bottom of bottle) to make a hanger.

Add sugar and water and mix thoroughly, hang outside and enjoy feeding you new flock of hummingbirds.
